About us

We design and optimize complete systems and production lines. From design to detailed engineering and implementation... our practical approach delivers fast results!

You can also contact us for standard CIP systems, inline pasteurizers, and UHT units. With proactive service and planned maintenance, we ensure maximum uptime.

Hygienic design and EHEDG are always paramount, so that quality and product safety are guaranteed and you have complete technical relieved.

Our expertise

- ✓ CIP – Cleaning in place
- ✓ SIP – Steaming in place
- ✓ Pasteurization
- ✓ UHT - Sterilization
- ✓ Storage, transport, mixing and dosing
- ✓ Filtration
- ✓ Evaporation
- ✓ R&D-development
- ✓ Hygienic design
- ✓ Process utilities

Why Fluidz engineering

- ✓ 25+ years of experience in food & pharma
- ✓ We think along and ahead with you
- ✓ Pragmatic
- ✓ Multidisciplinary
- ✓ Efficient
- ✓ Independent
- ✓ In-depth knowledge of food & pharma and their processes
